- Cell phone (full charge)
- Fishing license
- Fishing regulations (print or digital)
- Flashlight
- Hat
- Snacks (high energy)
- Sunglasses
- Sunscreen

Considerations for young children

- **Be prepared.** Bring lots of healthy snacks to eat and drink, have a plan for bathroom breaks. Line up their rod before heading out so they can start fishing as soon as you arrive, it can be hard for them to wait with so much anticipated excitement.
- **Start with short trips.** Lengthen time as they get older.
- **Target panfish.** Big fish are great, but keeping kids engaged with more catches is key. Most children are happy to catch anything.
- **Enjoy the outdoors** — there is more to fishing than actually catching fish. When the bite starts to slow, encourage them to explore their surroundings, look for creatures, collect rocks, launching leaf “boats” into the water, and get dirty. They can also practice their **Knot Tying**.
