### Connect The Dots

### Imagine, Draw & Write

Walleye are one of Ontario's most sought after fish. They are extremely tasty, and are good fighters. Jigging in the weeds can be a very effective way of catching walleye during the day.

Imagine you are fishing for walleye and you have a big one on your hook! In the space below, draw or write (or both!) what happens next.

Did you reel in your big walleye or did he get away?  
What's the weather like? What else was going on?

**What did the fish say  
before biting the lure?**

"Walleye" suppose I'll be nice and give the fisherman some action, I "Bass"ically don't want him to have a "Crappie" day.
